

READING MATTERS!

What's the one thing all ultra-successful people have in common?

They read. A lot.

***Bill Gates** reads 50 books a year.

***Mark Cuban** reads more than 3 hours every day.

***Elon Musk** was asked how he learned to build rockets, he said "I read a lot of books."

***Mark Zuckerberg's** New Year's resolution for 2015: to read 1 book every 2 weeks for the entire year.

***Oprah Winfrey** selects one of her favorite books every month for her Book Club members to read and discuss.

It's no coincidence. Most successful people give credit to reading as a factor in their success.

Still need more convincing?

Regular readers get higher grades in school, have higher IQs, higher self-esteem, make more money, and even live longer.

In the end, words are the building blocks of life. You became the very person you are today based on words, those that you've heard and READ and believed about yourself up until this moment.

And who and what you become in the future will depend and be shaped by the words you'll hear and READ and believe about yourself now.

So stop wasting time, and start reading!
